

I reject any attempt by the failed commercial TV and Radio Industry to put any constraints on XMSR, XM Satellite Radio reports of Weather and traffic reports accross our nation. Commerical radio is not worth listening to and I pay Monthly for the right to take radio waves from XMSR for Music and News to my liking.

Any encroachment on my rights will not be appreciated. As long as we have a Republican President, I am probably safe. Woe unto us if the idiot gets in, John Kerry.
